DANVILLE TOBACCO MARKTT.

(Reported by Dibrell Bross, Inc.)

Danville, Va., June 1, 1967.

The loose sales the past week have amounted to only 175,000 pounds, and consequently have not been sufficiently large to be of very great interest to the buyers. Furthermore, the stock sold has been more inferior than usual and mostly diamaged. The market for redried stocks in hogsheads has been quite active, and there has been considerable inquiry that has resulted in sales that foot up a respectable total. The laquiries are from widely-separated foreign markets. The weather for the week has been unusually cold and windy for the season. The result has been that what little isbacco there was set out on the wide of the 25th has been damaged by cut worms or the weather. While the crop is being planted under adverse circumstances, still there is for reason why good seasons may not overcome all of the set-backs. It is probable, however, that the poor planting seasons will result in a smaller acreage than was intended to be planted in the old belt.

Sales May, 1907, 2,000.681 pounds; ten months, 1904-07, 35,108,136 pounds; tanles May, 1904, 33,844,659 pounds; increase, May, 1907, 1,562,304 pounds; increase, 1906-07, 1,263,637 pounds.
